Message From Founder & CMD-iiiEM

It gives me immense pleasure to introduce yet another venture of iiiEM. We are now publishing an e-Bulletin.

This is a monthly magazine on news and more in the world of International Trade.

We understand our participants sometimes grapple with information.

There is a lack of easily accessible single source of information on the Global Market.

As always, my source of inspiration is my participants, office staff, and the gen Zee.

iiiEM wants to be at their fingertips, on their inseparable mobile gadget. Hence, Prarambh, the e-Bulletin, started.

Prarambh – We start with products, country, global hits & misses,

India's achievements, and of course, the young export entrepreneurs.

This is one place to look for "beyond news" on your favorite subject, Foreign Trade.

Let's Prarambh,

Best Wishes,
Dipak Sudhir Manohar

About iiiEM

It is now glorious fifteen years!

Started with a vision to march ahead with the Mission Golden Bird in mind.

Slowly this Mission changed into a lot of activities for awareness across the country.

The idea and intention are to bring the golden days back in India – the same prosperity and the speed and technology of the latest times.

Our efforts are always towards helping, mentoring, coaching, and guiding our export entrepreneurs.

iiiEM marks its success with 35,000 participants and 12,6,72 exporters and importers.

With this sprint, we have our presence in more than 40 locations in India.

iiiEM's activities, training, and support are governed by the Mission Golden Bird!

We practice and preach Mission Golden Bird!

Jai Hind

Millets - Products and Market

Once a staple in traditional Indian cooking, millets need to be brought back into

our regular diet as one of the most healthy foods. Thus, the United Nations declared the year **2023 the International Year of Millets.**

Millet is loaded with nutritional value hence it is recommended as one of the breakfast cereals that you must include in your diet.

Millet is a type of cereal that is a part of the grass family Poaceae.

This small round whole grain is grown in India and Nigeria, in large quantities.

Just like brown rice and quinoa, millet food can be cooked for easy digestion.

India is the 5th Largest Exporter of Millet in the World.

A variety of millet - these are all a part of traditional Indian cuisine.

Millets - Products and Market

ITC HS Code for Millets - 1008.29

Major Indian States Producing Millets
